

# FIREWOOD

Dunham's Lawn Care is known for providing our clients across the Dayton area with high-end firewood. Beautifully seasoned and clean, our firewood will burn longer, slower and with less smoke than fresher, greener wood. All of our firewood is a combination of certified hardwoods like Ash, Oak, and Birch which are the best types of wood for long burning fires. All of our wood is cut between 14"-18" so it will fit in any size fireplace or wood burning stove.

## WHAT WE OFFER:

Delivery available for full and half cords. Delivery charge depends on your location. We also offer a convenient stacking service to save you the work!
