

# LAWN TREATMENT SCHEDULE

## APPLICATION

**1** **March-April**  
Application of fertilizer with weed and crabgrass pre-emergent.

**2** **Mid April-May**  
Late Spring application of fertilizer with weed control.

**3** **June-July**  
Summer application of fertilizer with weed control.  
Grub and insect treatment also available upon request.

**4** **August-September**  
Late Summer application of fertilizer with weed control  
(temperature dependent).

**5** **October-November**  
Fall application of fertilizer with weed control.

\*Fertilizing is meant to supplement your lawn along with proper homeowner care. Results will vary depending on condition of the yard.
